The third round of the first season of the Trinations League was a success. We proudly present the points distribution for each participating team in Barcelona; these points will be added to the points received at Bergamo and Zurich as published on trinationsuwrl.com:

1. BCN Rugby Sub: $15 + 9 + 4 = 28$
2. Piranas Penafiel: $15 + 8 + 2 = 25$
3. Firenze RS: $15 + 7 + 1 = 23$
4. Physalis: $15 + 6 = 21$
5. OSOS Madrid¹: $15 + 5 = 20$
6. SLRG Luzern¹: $15 + 4 = 19$
7. RS Milano: $15 + 3 = 18$
8. Bordeaux: $15 + 2 = 17$
9. Zurich²: $15 + 1 = 16$

In accordance with the committee the organization adapted the time and schedule.

We congratulate the team of BCN for the organization of the leg. We want to thank all the teams who participated to the leg; especially the two Zurich juniors.

We hope that all participating teams will make the effort to join at the last round.
We see you all in Bergamo !

Elisa, Kamilo & Antoine

¹ We apologize for a mistake in the ranking between Madrid and Luzern. It was due to the fact that the goal difference must be taken between the tied teams only (and not the entire group).

² Due to a lack of players, Zurich gave forfeit. Because they fully registered to the leg and at least two players joined the tournament, they are getting the leg points.

According to the draft's rules, there were two groups of draft players:
